Job Description: Fiber Optic Technicians for Wood Brothers Logistics in Margaretville (based out of Deep River, CT): Full-time, regular; Monday-Friday; 7AM to 5PM; salary range from \$18-\$25 (hourly and production based pay); no benefits; overtime available; travel possible. Experienced in working outdoors and indoors; prepping enclosures, fiber splicing using fusion splicing machine; comfortable using a 24' extension ladder and working a bucket truck. Ability to work unsupervised and solve problems out in the field if necessary. Ability to test using a OTDR and power meters. Work currently located in the Catskills over a four-county area.

Who is Wood Brothers Logistics: Specializing in Fiber Optic Systems Installation and Repair

Technology in today's business landscape is ever changing. It's imperative that your business stay current with these advancements with structured, up-to-date network cabling, simplified adaptability, and future-proof capabilities. It's all about the infrastructure. It's imperative to ensure your structured cabling system is prepared to provide your business the advantage to easily handle current and future technology. Wood Brothers Logistics offers structured network cabling and fiber optic solutions to quickly and affordably install a quality infrastructure – helping your business increase efficiency and profitability. Wood Brothers Logistics ensures timely project completion, working with you to ensure your company can continue to operate during the entire process. Whether your company is in need of a new structured cabling installation, fiber optic network capabilities, or simply requires delicate splicing to your existing network cabling, we provide the highest quality work at affordable prices.
