CNC Operator – Full Time

Day Shift – 7:00am to 3:30pm

Pay Rate \$20.00 to \$25.00 hr. depending on experience

Job Overview

We are seeking a skilled CNC Operator to join our team. The ideal candidate will have experience working with precision measuring instruments and operating CNC machines in a manufacturing setting.

Responsibilities

- Operate CNC machines such as lathes and milling machines
- Read and interpret blueprints to determine machining operations
- Use micrometers and other measuring tools to ensure parts meet specifications
- Inspect finished products for quality and accuracy
- Maintain equipment by changing tooling as needed

Requirements

- Previous experience as a CNC Operator in a factory environment
- Proficiency in operating Fanuc controls
- Familiarity with hand tools and precision measuring instruments
- Knowledge of CAM programming is a plus
