Press Brake Operator – Full Time

Day Shift – 7:00am to 3:30pm

Pay Rate \$22.00 to \$35.00 hr. depending on experience

Overview

We are seeking a skilled Press Brake Operator to join our manufacturing team. The ideal candidate will have experience operating press brake machinery and will be responsible for fabricating and assembling metal components to meet precise specifications. This role requires attention to detail, a strong understanding of mechanical processes, and the ability to work with various tools and equipment.

Duties

- Set up and operate press brake machinery including selecting the proper tooling and adjusting the machine settings to bend and shape metal according to specifications.
- Interpret blueprints and technical drawings to determine the necessary fabrication processes.
- Perform both visual and dimensional inspections of parts
- Perform routine maintenance on equipment and troubleshoot any operational issues.
- Collaborate with team members to assemble components and ensure quality control throughout the production process.
- Follow safety regulations and wear necessary PPE.

Requirements

- Minimum 5 years' experience as a Press Brake Operator in a manufacturing environment.
- Proficiency in using hand tools and precision measuring instruments.
- Ability to read and interpret technical documents, including blueprints.
- Strong attention to detail with a commitment to producing high-quality work.
- Excellent problem-solving skills and ability to work independently or as part of a team.
- Knowledge of safety protocols in a manufacturing setting.
- Previous experience with fabrication processes

Join our team and contribute your expertise as we strive for excellence in manufacturing!

Qualifications

- Proficiency in operating press brake machines
- Experience in fabrication and using hand tools
- Strong mechanical knowledge in manufacturing settings
- Familiarity with precision measuring instruments
- Ability to read blueprints accurately
- Prior experience in utilizing precision measuring instruments and working with sheet metal
